How to Connect to a Minecraft Server â€" The way in which you connect to a Minecraft server depends on what kind of server you are using. If you are using a Bukkit or Tekkit server, then the connection will be handled automatically and everything connected through the same IP address. You can connect directly by typing the IP address into your internet browser or the host name of the server. If you are using an individual private server, you will need to know an IP address of where your Minecraft Server is located. The easiest way that anyone can get this information is by going to their router's configuration settings and finding out the IP address given from them. This IP address is different for each device and will be different every time that a person uses it.",

In Minecraft, players are able to build huge structures where they could live for days or even weeks without seeing another player on another computer unless you far away from their view range. The only way to become visible on the server is by breaking certain blocks such as fences and most trees which causes a noise that will attract other players to your location. If the player is the first one at a piece of land upon joining, then it will be owned by them. If another player sees that first person at the location and decides they want it, they can kill them and then claim ownership.",
